

José Ramírez

Product Design Lead

Hi! 🖐️

I'm José 🧑, a Designer with 10+ years of experience designing and scaling digital products in fintech and complex platforms.

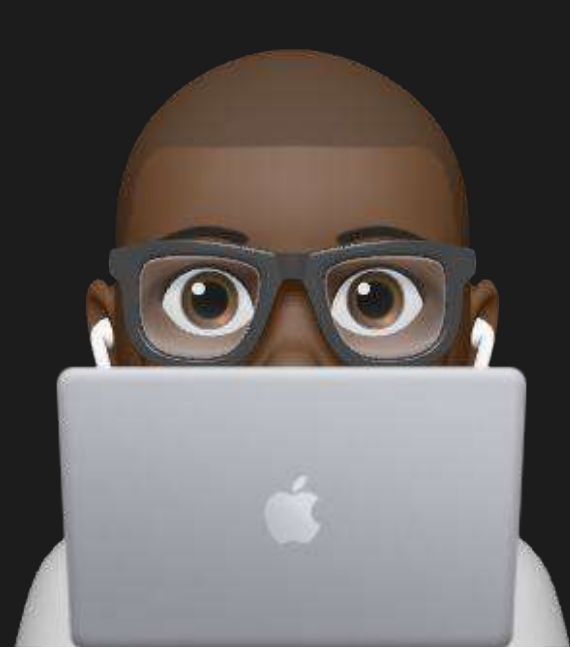

I've worked across enterprise and high-growth environments (BBVA, Creditas, Clip, Accenture, Spin), leading end-to-end product design by framing complex problems, selecting the right research methods, and translating business goals and user insights into clear product direction. ⚡

My work spans interaction design, complex user flows, and system-level thinking, ensuring solutions are intuitive at the interaction level while remaining scalable and consistent through strong design systems. 🦖

I partner closely with product, engineering, and business stakeholders to align on outcomes, navigate trade-offs, and drive decisions from discovery through delivery. 🔥

Outside of work, I'm a family-first person who values balance and long-term growth. I enjoy basketball, video games, and music — interests that keep me curious, creative, and grounded. 🏀

I'd love to contribute my skills and creativity to your team! Let's set up a call. Here's my availability 📅

Relevant experience

Senior Product Designer @ **InventiaLab** | Remote — 2024 - Present

Assigned to BBVA Mexico, leading the end-to-end design of an Insurance App and a Direct Debit (recurring payments) product. Led product definition, research, usability testing, and cross-functional collaboration. Designed scalable solutions under BBVA's new Design System.

Product Design Lead @ **Matter** | Remote — 2022 - 2024

Guiding the rapid prototyping process for user validation and iterative app development, driving a successful product relaunch. My work allows users to authentically express themselves in multiple dimensions of their lives.

Senior Product Designer @ **Pauca** | Remote — 2022 - 2023

Led the rapid prototyping process to validate business ideas with real users, contributing to the development of products like ATL, Family Office, and Data Dashboard. Collaborated closely with cross-functional teams to define and bring these products to life.

Product Design Lead @ **Alohome** | Remote — 2021 - 2022

Spearheaded the design process for creating innovative products like a digital showroom, marketplace, sales team tools, interactive maps, and a payment platform. Worked alongside business, engineering, and customer success teams to shape the product roadmap and conduct market discovery sessions.

Senior Product Designer @ **Creditas** | Remote — 2020 - 2021

Focused on Discovery in collaboration with Product, Biz, and Engineering teams. Responsible for designing user flows, interactions, and visual elements, as well as prototyping, user validation, and tracking results and metrics.

Senior Product Designer @ **Clip** | Mexico City — 2019 - 2020

Joined the new products team to develop innovative payment solutions, including wallet, card-not-present transactions, checkout buttons, and developer dashboards. Conducted discovery sessions, user interviews, and usability tests, while collaborating with engineering and product teams to bring these products to market.

Senior Experience Designer @ **Accenture** | Mexico City — 2018 - 2019

Consulted on UX projects across various industries, including top banks, NGOs, and the communications sector. Engaged in all phases of project development, from product definition and research to ideation workshops, usability testing, and prototyping.
